Re: Announcement – New Customer Service Representative

MEPCO is pleased to announce that **Louise Monske** is MEPCO's new customer service representative. Louise has been with us since October of 2013 and has worked both in production and customer service over those years. Because of her experience, Louise brings an excellent knowledge of our products.

We are excited to have Louise start this new chapter with us! Please feel free to contact her with your customer service questions or maybe just to say hello and introduce yourself. You can find her contact information on our website at <http://www.mepcollc.com>.
